World championships and bioware*

Huhtamaki's environmentally sound single use range BioWare was used by the main caterers of the 10th IAAF World Championships in Athletics, arranged in Helsinki in August 2005. BioWare suited the event's profile, as it observes the environmental program ECO-mass (ECO-Efficient Mass event), a program aimed to reduce the overall environmental impact of the event by e.g. enhancing the sorting of waste and reducing the amount of waste to landfill.

“ In its worldwide activities and presence Huhtamaki strives for innovative solutions and operational excellence. Huhtamaki wants to be a proactive company contributing to its customers’ success by helping them sell more. ”
